

Rock Green Light

Introduced:	2003 (acquired by Anheuser-Busch in 2006)
Beer Category/Style:	Premium Extra Pale Low-Carbohydrate Light Lager.
Taste Profile:	Rock Green Light is a refreshing, well-balanced, low-carbohydrate light lager with a slightly fruity aroma and crisp, clean finish.
Ingredients/Brewing:	Blend of pale and roasted malts along with unmalted grains to perfectly balance the flavor.
How to Serve:	Serve Rock Green Light in a tall thin tumbler and pair it with spinach salad with walnuts, and cheddar and smoked gouda cheeses.
Interesting Facts:	There's quite a bit of mystique surrounding the "33" on the Rolling Rock bottle. Some say this might represent the number of words in the pledge of quality, the year Prohibition was repealed, the number of letters in the ingredient list, or a mistake when the first bottle was printed. It remains a mystery.
