

RESPONSIBLE DELIVERY BASICS

CHECK IDS PROPERLY

To verify the information on an ID, you need to be able to locate the important information, shown on the image, and decide if it is valid.

1. Check the birth date.
2. Check the expiration date.
3. Compare the photograph to the person in front of you.

sample ID - reference ID Guidebook for current standards

Remember, your responsibility to check an ID involves more than simply glancing at it. If you cannot verify the information, you cannot accept the ID as proof of age and must refuse the alcohol sale or cancel the delivery.
