UNDERAGE WARNING SIGNS

Be alert to any person who may:

Hide one's face or look away while you are studying the ID.

Hand money or defer to someone else who is obviously of age.

Try to distract you by talking fast or asking lots of questions.

Move around frequently or act in a nervous manner.

Get upset when asked for an ID.

Be alert to groups of underage looking people congregating at the delivery site.

State that "carding" isn't necessary.

If a customer displays one or more of these behaviors, be sure to thoroughly examine the presented ID.
